

# Preduet®

Paracetamol Tablet/Suspension/Syrup/Paediatric Drops

## Composition

**Preduet®** tablet : Each tablet contains Paracetamol BP 500 mg.

**Preduet®** suspension: Each 5 ml (one teaspoonful) suspension contains Paracetamol BP 120 mg.

**Preduet®** Syrup : Each 5 ml (one teaspoonful) suspension contains Paracetamol BP 120 mg.

**Preduet®** Paediatric Drops : Each ml drop contains Paracetamol BP 80 mg.

## Indication

Paracetamol is an analgesic and antipyretic drug used for the temporary relief of headache, fever, minor pain, muscle aches, or the pain of arthritis. Paracetamol relieves pain in mild arthritis but has no effect on the underlying inflammation, redness and swelling of the joint. It does not cause the stomach irritation often associated with aspirin.
